DETAILED ACTION

IDS

1. The IDS filed on 10/31/05 is missing the 1449 form and the references disclosed in the PCT search report, PCT/IB 03/04403. The search report has been initialed and all of the references disclosed have been crossed out and have not been considered. The US references disclosed are also crossed out because the Publication numbers are incorrect. There are eleven digits to a U.S. Patent Application Publication number and not ten.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

2. The prior art teaches the materials disclosed in the independent claims being used as a phosphor for a light emitting device, but the prior art does not teach the materials used under the parameters as claimed. This combination has been found to be non-obvious thus allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 1-11 are allowed.
